opium in the shape of unauthorised cultivation in certain Indian States and illicit conversion into heroin. Infact, a major importer of Indian opium in the USA, sent a team of their officers to India in March, 1991, who visited opium growing areas at the time of harvesting and submitted a very favourable report about the preventive controls exercised over illicit cultivation of opium in India. The US administration, however, has been expressing apprehensions about leakage from licit production of opium in India and stray attempts at its conversion into heroin. Available reports, though, point towards minimal leakages The preventive set up has also been strengthened to control leakages, with the establishment/ strengthening of preventive units at Dehradun, Kanpur, Agra, Udaipur, Neemuch, Barabanki and Kota.

Import of opium into USA from India is regulated by the 80-20 rule under which 80% of the imports of narcotic raw material into USA are required to be made from India and Turkey. Attempts have been made by certain lobbies in the USA to reduce India's share of exports to the USA, but these have not succeeded.
